NATO CIVILIAN PRE-DEPLOYMENT COURSES IN 2016 **JOINING INSTRUCTIONS**

1. The Military Academy (MA) is pleased to welcome attendees to NATO Civilian Pre-deployment Courses, to be held at Vyškov, Czech Republic (CZE), in 2016. The dates are as follows:

11-18 March 2016: TDD-U3-0041

10-17 June 2016: TDD-U3-0042

9-16 September 2016: TDD-U3-0043

4-11 November 2016: TDD-U3-0044

COURSE DESCRIPTION

2. The course is administered by the NATO HQ IS Talent Management and Organizational Development (TMOD) Service. It is accredited by ACT and is mandatory for all NATO civilians who will be deployed in support of NATO Council-approved operations and missions. Attendees must be formally registered and will need to apply through their local HR office using the on-line application process <https://jad1.act.nato.int/CIVTraining> (Internet).

3. Places are limited to 40 participants per course. In the event of over-booking, priority is given to those whose deployments are imminent.

4. Aim of the course: To provide NATO civilians with the knowledge and practical skills needed to deploy safely and successfully in support of NATO operations and missions, wherever they may be.

5. Concept: The emphasis is on learning through practical experience rather than academic testing, although the course includes some assessments to confirm that attendees have grasped the required knowledge and skills.

6. Programme: The outline programme is shown in Annex A.

7. Course Preparation: All attendees should note the following:

- **Advanced Distributed Learning (ADL)**: as a pre-requisite to the pre-deployment course, participants are required to complete on-line training using the ADL modules accessible via internet or intranet (see Annex B) on the ACT website. Please note that the estimated time to complete the mandatory modules is approximately five hours.
- **Language**: The course will be conducted in English, although interpretation into French can be made available if requested in good time before the start of the course.

- **Fitness:** Attendees will be invited to participate in outdoor 'field' training to put theory into practice. This will not be overly arduous, but will require a good level of fitness. **It is essential that any individual health, fitness or other personal concerns are brought to the attention of the instructors in advance of the exercises. The Human Resources Officers at NATO bodies are asked to monitor this aspect carefully and must not send anyone for training who might pose a risk to him/herself or others.**
- **Vaccination:** It is recommended that participants get vaccinated against tick-borne encephalitis (FSME vaccination), which is a three-shot vaccination and requires 28 days for complete protection.
- **Map Reading and Practical Navigation:** A basic understanding of map reading would be helpful, but is not essential.

ADMINISTRATION

8. NATO Civilians are to inform their NATO Personnel/HR Office should they need to attend the training. After that they have to register via the electronic application form (<https://jadl1.act.nato.int/CIVTraining>) no less than five weeks prior to the start of the course.

9. Last minute cancellations. Please note that cancellations at the last minute (from 2 weeks prior to the course), where no replacement is possible, will be charged at the full price of the course. In addition, a justification will be required by the staff member's manager.

The bus will collect participants from Prague airport at 11:00 hrs on the first day of the course. Participants will be returned to Prague airport to arrive by 11:30 hrs on the last day of the course.

The meeting point at the airport is the area in front of Information Desk of Terminal 2 which is located on ground level, inside of the Terminal 2. You will be met there by a member of Military Academy staff.

All participants must communicate their travel arrangements by email to office@predeploymentcourse.com with cc. szewczyk.dorota@hq.nato.int as soon as flight details are known and **no later than 1 week prior to arrival.** Please indicate whether the organised transportation to and from Prague airport will be used, as spaces must be booked in advance.
